## EDUCATION

| Diploma/ grade             | Institution                                 | score          |
|----------------------------|---|----------------|
| Diploma<br>Advance diploma | Jsiit kazaure                               | 3.0 CGPA(2021) |
| Senior secondary<br>school | Kafinsoli<br>government<br>Secondary school | 70%(2018)      |

## SKILLS

Html, css , javascript  
React,  
Graphql ,  
Java,  
Sql,

## EXPERIENCE

- ❖ Ecommerce Website : this project was to build an online delivery service which anyone across the globe can buy from your website, it contained rigorous frontend and backend skill to make it more functional
- ❖ Youtube clone: This project was solely meant to imitate the ui of youtube. It helped sharpen my frontend skills.
- ❖ Library record system : A system that helps keep track of all the books in a library, with a functionality of “create”, “ read”, “update”, and lastly “delete”.
- ❖ Recipe website: this website displays many categories of available food and recipe, and it enables users to search for the recipe they want, with a guideline of how to make it.
- ❖ .portfolio: I created my personal portfolio where you can see the big projects I have done.

## ADDITIONAL SECTION

- Paper Presentation context: this was a presentation we did in school on application infrastructure and system security and computer forensic
- Maintaining websites: i handle and maintain websites
- blog : I write and post on my blog website.
